INTERMEDIATE   (April 2018 – March 2019)

Army Public School SP Mark LKO

- Percentage - 82%

HIGH SCHOOL   (April 2016 – March 2017)

Army Public School SP Mark LKO

- Percentage - 80%

PROJECTS

LOTTERY DAPP

- It's a decentralized application in which a number of participant can take part in a lottery and one of them will become winner and then the amount of all the participants will be transferred to the winner.

SALARY DAPP

- It's an application that enables the manager to transfer the salary of registered employees of the company in one go.

TIMELOCK SMART CONTRACT

- This Smart contract allows the locking of the deposited money for a certain period of time. this can also be beneficial in stopping the sudden crashes of the crpto market due to panic.
